

June 31st Church by Joseph D. Smith

“Nothing is certain. How can there be a beginning, while there is no end? All polarities exist together. Our immortal souls were around for all of eternity, so how did God create us when we already existed?”

June 31st Church is centered upon uncertainty, and our creed is that we must accept uncertainty. We need not worry about the future that we have not yet witnessed; we need not worry about the past, which we cannot change. The present is our home, it is our path.
